

## ALASKA DRY COLD 2 DRAFTS - CO<sup>2</sup>

HOURLY FLOW (ΔT 15): 55 l/h

D3088NT

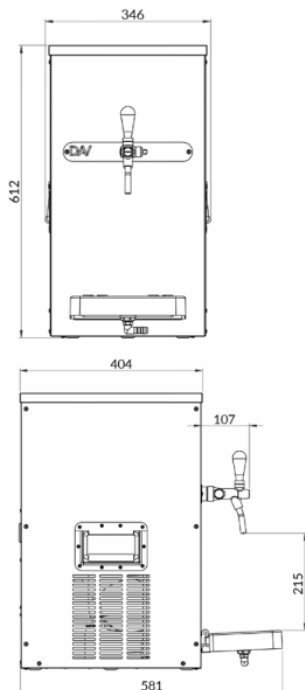

MADE IN FRANCE

Quick and easy to use after connection: without ice bank  
 Beer quality comparable to professional establishments  
 Practical: foldable drip tray  
 Ecological: Propane R290  
 Designed and manufactured in France by DAV equipments.

Ideal for your events: Plug in and serve immediately!  
 Combining design, functionality and convenience, this mobile solution is easy to transport. Thanks to this dry cold solution (without water) accompanied by a bottle of CO<sup>2</sup>, Alaska guarantees an easy and immediate use: 1 minute is enough before you can serve your drinks. Alaska cold dry CO<sup>2</sup> will be particularly suitable for events requiring 1 to 5 drums over a day. With its integrated pressure regulator and CO<sup>2</sup> hose, it guarantees a beer quality comparable to that of coffee shops, hotels and restaurants. Its two nozzles will allow you to offer your customers the choice of two different beers.
