

IGLOO beer up plate

2 Drafts

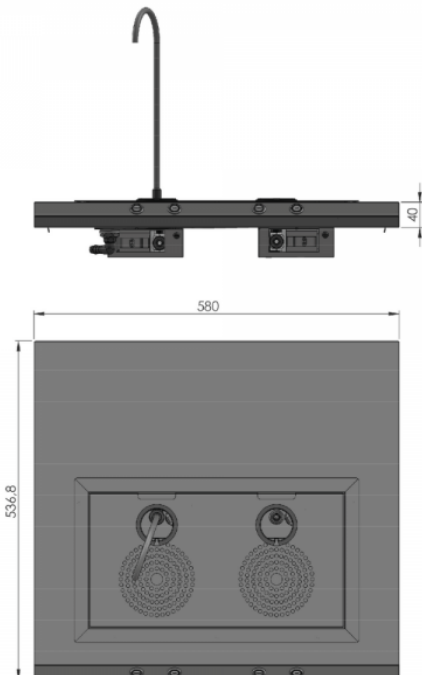

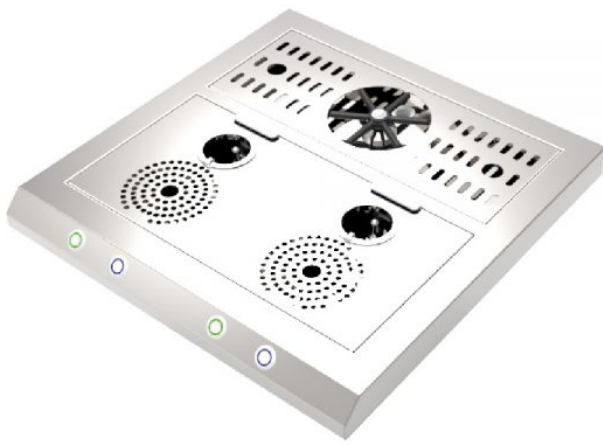

L02494BU

MADE IN FRANCE

Practical: Fits on the mobile solution (D3076)
 Easy: Automatic or manual filling from below the cup
 Economic: Faster and more profitable
 Ecological: Washable and reusable glasses (about 500 uses)

Innovative, the Beer-up board allows you to serve differently, without constraint. It can be easily adapted to the traditional IGLOO mobile solution (D3076). No need to know how to draw beer: simply place the glass in the orifice, and the filler fills it up by itself, to the nearest centilitre. It thus ensures a gain in speed and therefore a much higher yield. A classic service is also possible thanks to a removable spout, recommended for the beginning and end of the barrel. The Beer Up board is designed for intensive use. Equipped with a volumetric counter, it will allow you to count the actual litering of your event. The gobelet can easily be rinsed and refreshed thanks to the integrated glass rinser. It is supplied with 2 cup grids: 1 grid of 2 x 25 cl and 2 x 50 cl cups. The cups are washable in dishwashers and glass washers.

Technical Specifications

NOMBRE DE TIRAGE MAX.	2T
DIMENSIONS (MM)	L.581 x p.538
PRISE DE TERRE	Mandatory
