From small private events to large  
gatherings of thousands of people

Beer **Up**  
system

by **DAV**  
1957

Private events  
Catering

Bar, hotel, restaurant,  
camping

Stadium, festival

## THE BEER UP TECHNOLOGY

### INNOVATIVE

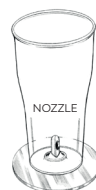

Patented circular jet pouring system, reproducing the traditional dispensing

Perfect foam

### GUARANTEED BEER QUALITY

Preservation of all the flavour of the beer  
Guarantee of consistent quality after each filling

Comfort & speed of service

**1**

Put down the cup on the filling nozzle

**2**

The cup fills up in automatic or manual mode

**3**

Remove the cup, serve & drink!

### ECONOMICAL

Choice of volumes (25cl, 33cl, 50cl)

Limits waste and loss of kegs of traditional tap dispensing

Automatic filling and stopping  
Fast service, staff savings

### ECOLOGICAL

Eco-designed plastic goblets  
Resistant and unbreakable  
Washable and reusable  
(200 uses on average)

### CONVENIENT

Ease of use by staff or in self-service

Higher performance  
(25 beers/minute for 2 taps)

Cups with integrated silicone valve

### CUSTOMISABLE

Silkscreen printing technique  
1 or 2 colours possible

Made in France
